Dear Mr. Sommer,

I have made arrangements for the payment of our 1990 subscription to IVTO, you should have received the cheque for the full amount by now.

As you are aware the Irish National Member Institution is a Government Department and it is necessary for me to obtain official approval before committing any public expenditure. I have made a case for the purchase of the Information Brochure and part of my case was based on:

- (i) having the text in column five in the Irish Language;
- (ii) inclusion of the name and address of the Department of Education as the Irish National Member Institution.

At the Administrative Committee meeting in Helsinki you quoted a provisional figure of 2,000 copies as the minimum order/purchase to qualify for inclusion of text in country's own language and inclusion of the name and address of the Member Institution. Please confirm that the minimum order/purchase in the case of Ireland remains at 2,000 copies taking into account that Ireland has a population of only 3.5 million.

Please confirm also, that the draft text Page 3 through to Page 19 is the final text as I wish to arrange for translation into the Irish Language.

Many thanks for your co-operation and for the efficient service you make available to members.

Yours sincerely,
