Marking in teams of 3 Keep 3 for Plentreal

Should be bigger where subjective?

break down subjective elements

Swaps around teams for different modules

Amendment of Technical Description

To include all procedures for guidance
of new participant members.

To include innovation, fault finding ~

To modularise if possible

Projects for Seoul Sep 2001

No guidance from WTO

No mandatory language requirements

I suggest

1. If special arrgts 33, IT take continue CAS Electronics

2. If pre-identified ^{eg. handicrafts} take one or more 1/2 day

projects - eg. afro haircut (SA hut models?)
or chinese cooking!

3. If taking a project for Montreal those
not used can be banked

4. If Montreal project from bank, take
a new project - or one or two modules
if it is the modularised.

Chief experts chosen

Get only UK chief expert

BR not a CE. LC withdraw 2 other UK proposed in case
estab CE fell under him

Indemo trade proposed Papstuber

(All acceptable except?)

21. Stenemasmy

18 (can't on there)

Why? Exclude

25 Stadler

- argued for Banks but not compare

list of CE & I.P. will be circulated

as soon as we have minutes + "X" list
Attention has been drawn to Rule changes

NB

Disciplinary Code

Note need provisions / appeals etc

Mont + UK propose Supplementary on
specific prohibition on electronic comm

Accepted in principle

See Rule

* No Experts Forum in September - not needed

~~had perhaps a word about Montreal~~
