To Whom It May Concern

Re: 1981 International Skill Olympics Medal

Hi, my name is Gay Harris and my husband was Dr. Thomas O. Harris.

He was on the Host Committee for the 1981 International Skill Olympics in Atlanta, Georgia, as well as the representative from the T&I Division of AVA to the VICA Board of Directors as well as the State Director of VICA in Kansas.

I was privileged to attend this event with him and it was outstanding. I am sure everyone who attended went home with pleasant thoughts about the competition and the glorious time they had in Atlanta.

My husband , Tom, passed away in May, 2020. Recently, I have been going through his belongings and found the enclosed Medal for the 2<sup>nd</sup> Place Winner in Milling.

I realize it is 30 years later, but perhaps the winner would like to have his medal. I have no idea how my husband ended up with it. I imagine he found it laying around someplace, picked it up, tucked it away, and promptly forgot about it.

Good luck in tracking down the person to whom this belongs.

Since I was also a vocational teacher and Vice-President of the Business Education Division of AVA. I am pleased to see that VICA or Skills USA is still thriving. So many of our programs here in the State of Texas have been nixed, but I'm hoping for a resurgence.

Sincerely,  
Gay Harris
