Voting Card

Mark only one box

I vote to adopt the following
marque as the Visual Identity
for WorldSkills:

☐☐

Korea

Institution: MOKWON University. Key Teacher: Oh Jeong-kil. Student: Yang Tea-ho

Using the hand as the basic concept for creating skills, this design shows a hand, representing the youth of all countries, reaching out for new skills, as expressed by the five strong lines of yellow, green, blue, red and black.

South Tyrol – Italy

Institution: LVH. Key Teacher: Herbert Fritz. Students: Kathrin Baldo, Andreas Alber

The words, 'world skills', are held graphically apart, using the character font Gill Sans Light and Gills Sans Bold. Skills, the meaning of the new designation, is given emphasis over the word 'world'. A coloured rainbow symbolises the earth or suggests 'world-globally'.
