DATE: February 14, 1975

Dear Sir

As we had had an internal Apprentice competition in each member country every year, it is esteemed that our member countries will have a plan to open the internal competition this year. In our country, we will open the competition at nine provinces 24 April to 30 in the field of 20 basic trades.

I would like to know about what your plan to hold the competition in greeting the New Year. Please let us know in details your plan for the competition in 1975, concerning with the opening date, extent of trades, places at working, facilities, number of competitors and any other informations available.

Those shall be issued in our bulletin such as "The Kyneung" which has been publishing quarterly for instructors and also "The Kyneung News" publishing monthly for skilled workers. Furthermore it will be much helpful for us to promote our competitions more effectively.

Hoping that I could be heard about it from you very soon,

Sincerely yours,

*S. H. Chus*
