Dear Archie

Despite the nice words about you in the enclosed letter from Warwick University, it is still a serious allegation of failure on your part as International Leader of the teams and the Team Leaders of each individual team. This allegation is so unfair, reflecting possibly more on Warwick's inability to handle a situation at which high spiritedness is bound to occur, that I intend to demand an apology on behalf of yourself and Lindsay Judge, myself and all the organisers involved.

Before doing so I thought you might like to comment on the letter. I shall also need from you a report on the alleged damage, whether it was reported to the police at the time, as we cannot claim insurance if it was not, and particulars of which country was responsible.

An early reply would be appreciated.

Yours sincerely

Peter Whaley
Chief Executive
