

Team Briefing Bidhan Newton 3-6 June 99

Introduction & Briefing Session Friday 4th
for Competitors 3.40 to 4.25 pm

15 mins

JDGH. Technical Delegate

98 years into UKS

Montreal 5th.

Background OHS HSE
mic rel UK Skills

Accreditation of Qual Cert
OHS systems Japan & Europe
Advise a discipline to any college
External Examiners for univ
+ work for several chambers

My role of UK Skills is as UK Tech Del
I have final responsibility for the overall performance
of the UK Skills team. If we don't give a reasonable
account of it, my neck is on block
Four aspects

1. In UK chain SONC - certain current / former expert
+ team leaders

- to advise in app of experts
- to oversee the big, dev & briefing of experts
- to set outlines for their training programmes
- all different but all meet
certain criteria / guidelines

+ Feedback

- to appoint mentors to new experts
- to appoint mentors to see that experts
are on track in prep work
- to plan events such as this
- to advise me as UK Tech Del to TVTO Tech Ctee

Report
& Advice to
UKS Board

2. In relation to IVTO

UK Tech Delegate is UK Tech Ctee

= resp in coop with host country for

organising the competition

- reviewing & revising the compet rules

- " " " " procedures

- eg. marking procedure

= reviewing technical description

- deciding which new skills to introduce
which existing ones to drop/amalg

= in short deciding anything relating to
a dual competition

3. At the competition itself:

I am in effect the team leader

of the experts & team leaders

with the help of H I & P Neale (Referee)

advise & guide experts, take up

issues as nec. with host country or IVTO

also

A International Role at Camp as UK Tech Del

Tech Committee meets daily to review

progress and deal with any problems arising

I in effect manages the event in coop with host organisers

Host Tech Del. also act as jury

presidents for one or more trades

To see that rules & procedures observe

To support, advise & oversee work

of chief experts

Explain JP/CE/E.

In short my job - which I couldn't
hope to do without the immense ~~the~~ enthusiasm
& knowledge & skill of UK Skitts staff, ^{POS} ~~the~~
& the members of SOWC who do all the
detailed work -

is to see that we have best trained,
best briefed & best prepared team for
Roulet

— & not only ~~the~~ yourselves
but also your experts

& trained & prepared not only in terms of
skill & technique — but in terms of
mental & physical preparedness for what
is both an immensely demanding but
also an immensely rewarding adventure

Something You are good at your trade — You're the best
but do not underestimate the opposition
The others will be good — but not so good, can't be beaten
The UK can do better than in recent years
but only by learning from experience

by managing & planning ~~you~~ how you
tackle your projects or perhaps 1 project over 4 days

This wife is about helping you to cope with
the inevitable stresses, about helping one
another, about creating a team

We know from sometimes better experience that this pays off.

If you have queries / concerns

Technical — to expert

Other to Charlie or Ian or of course Hilary / Heidi myself.

But

At the competition I may not communicate with you ~~except~~ by any means except in the presence of chief exp or expert and then can't

You contact during the competition will be with the Team leaders who will be very much in evidence. They will tell me if there is anything

I need to take up with the organisers or Tech Office on your behalf.

~~Especially I may not communicate with you~~

~~Identical~~ but I do look forward

to getting to know you all over the

rest of the life

hope you find it not only

useful

but enjoyable.
