SHELL CENTRE
LONDON

SEI 7NA

8th October 1984

Herr D. Sommer,

It was a great pleasure to meet you in Berne and I appreciate the amount of time you gave to me when I know you were exceptionally busy.

I do hope it will be possible for the International Organisation and my Company to devise a suitable means of association with the international event in Japan next year.

I am sure you understand that Shell's interest is primarily in the engineering and technical skills and I think that any help we may be able to give would have to be confined to those areas. I would not presume to suggest what form of assistance the administrative and technical committees may prefer, but if there were some means whereby a financial award could be made to enable exceptionally skillful apprentices to continue and advance their training or studies I think that would probably commend itself to my Grants Committee.

With renewed thanks and best wishes,

Yours sincerely

F. B. Dugdale.

Convener, Shell Grants Committee
