Mr. Archie Sharkie
45 Commore Drive
Glasgow W. 3.
Great Britain

Dear Sir:

I would like to express my deepest thanks for having given our Japanese team the opportunity to have a good competition with your youths and other team members coming from all parts of the world in the International Trade Competition held in Utrecht during the period of June 20 - 28, 1966. It was really wonderful experiences for our boys to have exchanged ideas and customs of their own with the others of various countries by living in the same dormitory at Kupersoord.

Also we will never forget the kind consideration and sympathy shown by you and your team members to one of ours called Wadai when he lost his money, and another boy named Hayakawa when he was sick.

I am looking forward to having a reunion with you and your folks next year in Madrid, Spain where we are sending our team for the next Competition.

Yours very truly

Dear Sir:

I would like to express my deepest thanks for having given our Japanese team the opportunity to have a good competition with your youths and other team members coming from all parts of the world in the International Trade Competition held in Utrecht during the period of June 20 - 26, 1966. It was really wonderful experience for our boys to have experienced ideas and customs of their own and the others of various countries by living in the same dormitory at Utrecht.

Also we will never forget the kind consideration and courtesy shown by you and your team members to one of ours called Masaki when he lost his money, and another boy named Hayakawa when he was sick.

I am looking forward to having a reunion with you and your folks next year in Madrid, Spain where we are sending our team for the next Competition.

Yours very truly
