Comunicado a de ce

Dear friend:

I have been investigating the possibilities of making application for consultative status with the Social Council of the United Nations (ECOSOC), as directed by the organizing committee.

They have advised me that according to the purposes of the International Organization for the Promotion of Vocational Training, acceptance or approval of ECOSOC would be of little value.

Ms. Lola Costa advised that we should contact the United Nations Education, Scientific and Cultural Organization (UNESCO) for possible support.

May I suggest that you contact:

Mr. E. Armerding, Director
CPX/REX
NGO Section
UNESCO
1 Rue Miollis
Paris XV, France

and apply for recognition and possible support.

Other agencies or departments of the United Nations are not interested in promoting Vocational Education, as far as I can determine.

If I can be of further assistance, please do not hesitate to call on me.

Sincerely,

HAROLD E. LEWIS, Director
VICA U.S. Skill Olympics and
Industrial Relations
