Information for your stay in Japan

"Laws and Restrictions"

Smoking **The official legal smoking age in Japan is 20 years of age or older.** Smoking by minors will lead to a fine and may lead to prosecution. Each public area has its own rules so please obey the rules according to each area.

Drugs **All illegal** drugs are strictly forbidden in Japan. The use and possession of any kind of illegal drug will lead to arrest and/or forced deportation.

Drinking **The official legal drinking age in Japan is 20 years of age or older.** Drinking by minors will lead to a fine and may lead to prosecution. Harm towards others or to property under an alcohol-induced state may lead to arrest and/or forced deportation. Driving under the influence of alcohol is a serious crime in Japan and violators will be dealt with harshly.

"Manners and general common sense"

Drinking water Tap water is drinkable. But since each person has different tolerances, if worried, please purchase mineral or spring water.

Shoes In Japan, there is a custom to take off your shoes when entering homes. This also applies for accommodation facilities and restaurants that have traditional Japanese-style rooms. Slippers may be prepared, but in some cases where not prepared, you still must take off your shoes.

Traffic Vehicles drive on the left-hand side of traffic. So please look to your right first before crossing streets.

Currency Foreign currency cannot be used. Please be sure to

exchange and use Japanese yen. Major credit cards can be used in larger facilities and venues, but in some local small shops, credit cards are not accepted.

Tips Tipping is not necessary. Some restaurants will include a service charge.

Consumption Tax

When shopping, a 5% consumption tax is charged. Keep in mind that this tax may or may not be included in the indicated price.

Taxi The cost is measured by distance and time and is indicated on the meter. Although this differs depending on the size and company of a car, the standard in Shizuoka is 620 yen for the first 1500m and an additional 80 yen for each additional 280m. There is also a 20% late night charge for taxi fares between 10:00pm and 5:00am.

For example, it will cost about 6,000 yen from Gotemba Main Village to the WorldSkills Competition site and is about 7,200 yen during the 'late night' times.

Public or shared baths

In a public or shared bath/hot tub, soap and towels should not be used in the hot tub. Please wash first and then enter the hot tub. The hot tub is not for washing, but rather to relax and get warm.

"Meals"

We have prepared Muslim food for those who are Islamic. However, since there is a limitation in the number of servings, we ask those who are not Islamic to refrain from eating these meals.

In Japan, there are many dishes using raw material. Because these are fresh and perfectly safe, we encourage you to try some when possible as it is part of the cultural experience.
