Dear Archie

Experts' development day

I should like to thank you for your most useful contribution to the programme of our first development day.

The style of your presentation - drawing on your own experiences and offering advice and guidance in your inimitable way - was exactly the right tone and was as pertinent to some of the more experienced experts as it was to the newcomers. I very much appreciate the time and trouble you took in preparing this. I hope you agree that the day went extremely well and showed all experts, old and new, that UK Skills is determined that all involved adopt a professional approach to their responsibilities. I am sure that you are delighted that we have got two more ex-competitors on board and that the well-balanced programme will benefit the 1993 team enormously.

Many thanks again for all your hard work.

Best wishes

Yours sincerely

Jim Hammer
