took part in WorldSkills London 2011**

Chris Humphries CBE
Chairman, WorldSkills London 2011

Tonight is a celebration. And it's all about our skills champions! As the WorldSkills London 2011 Competition comes to an end, the Closing Ceremony promises to be an exciting finale to the many achievements throughout the week and a fitting tribute to the world's most talented young people who have taken part and to their friends, families and supporters. Many of you have been planning, waiting and working towards this moment for a long time. Tonight is a culmination of that journey, by recognising your successes and the many achievements you have made. And no matter what the final outcome is, you are all deserving Champions and I know that you will reap the benefits of taking part long after the Competition has come to an end.

Sitting here this evening, with the tension and excitement mounting and Competitors, families, supporters and friends waiting anxiously to hear who will be judged the best in the world at their chosen skill, it is a fitting time to reflect on what has been a truly spectacular week. WorldSkills London 2011 set out to deliver on all of the promises made in its original bid and to make this the greatest skills Competition, careers and jobs event on the planet. We sincerely hope that we have in some way delivered on this ambition. But none of this would have been possible and we could not have delivered the Competition without all of you here tonight. So, on behalf of everyone at WorldSkills, I thank you all for making this possible and wish you all continued success!

See you in Leipzig in 2013!

John Hayes
Minister for Further Education,
Skills and Lifelong Learning

As WorldSkills London 2011 draws to a spectacular close, tonight is a celebration of some of the most talented young people from around the world.

All of you are winners – you have competed, and perhaps even succeeded in becoming the best in the world at your chosen skill. You take home the title of skills Champion.

As importantly you take with you a life-changing experience. For all of you here tonight, WorldSkills London 2011 will act as a catalyst to go even further and higher in your future careers. In doing this, you will be exemplary role models.

I congratulate everyone involved in WorldSkills and wish you all every future success.

Tjerk Dusseldorp
President, WorldSkills International

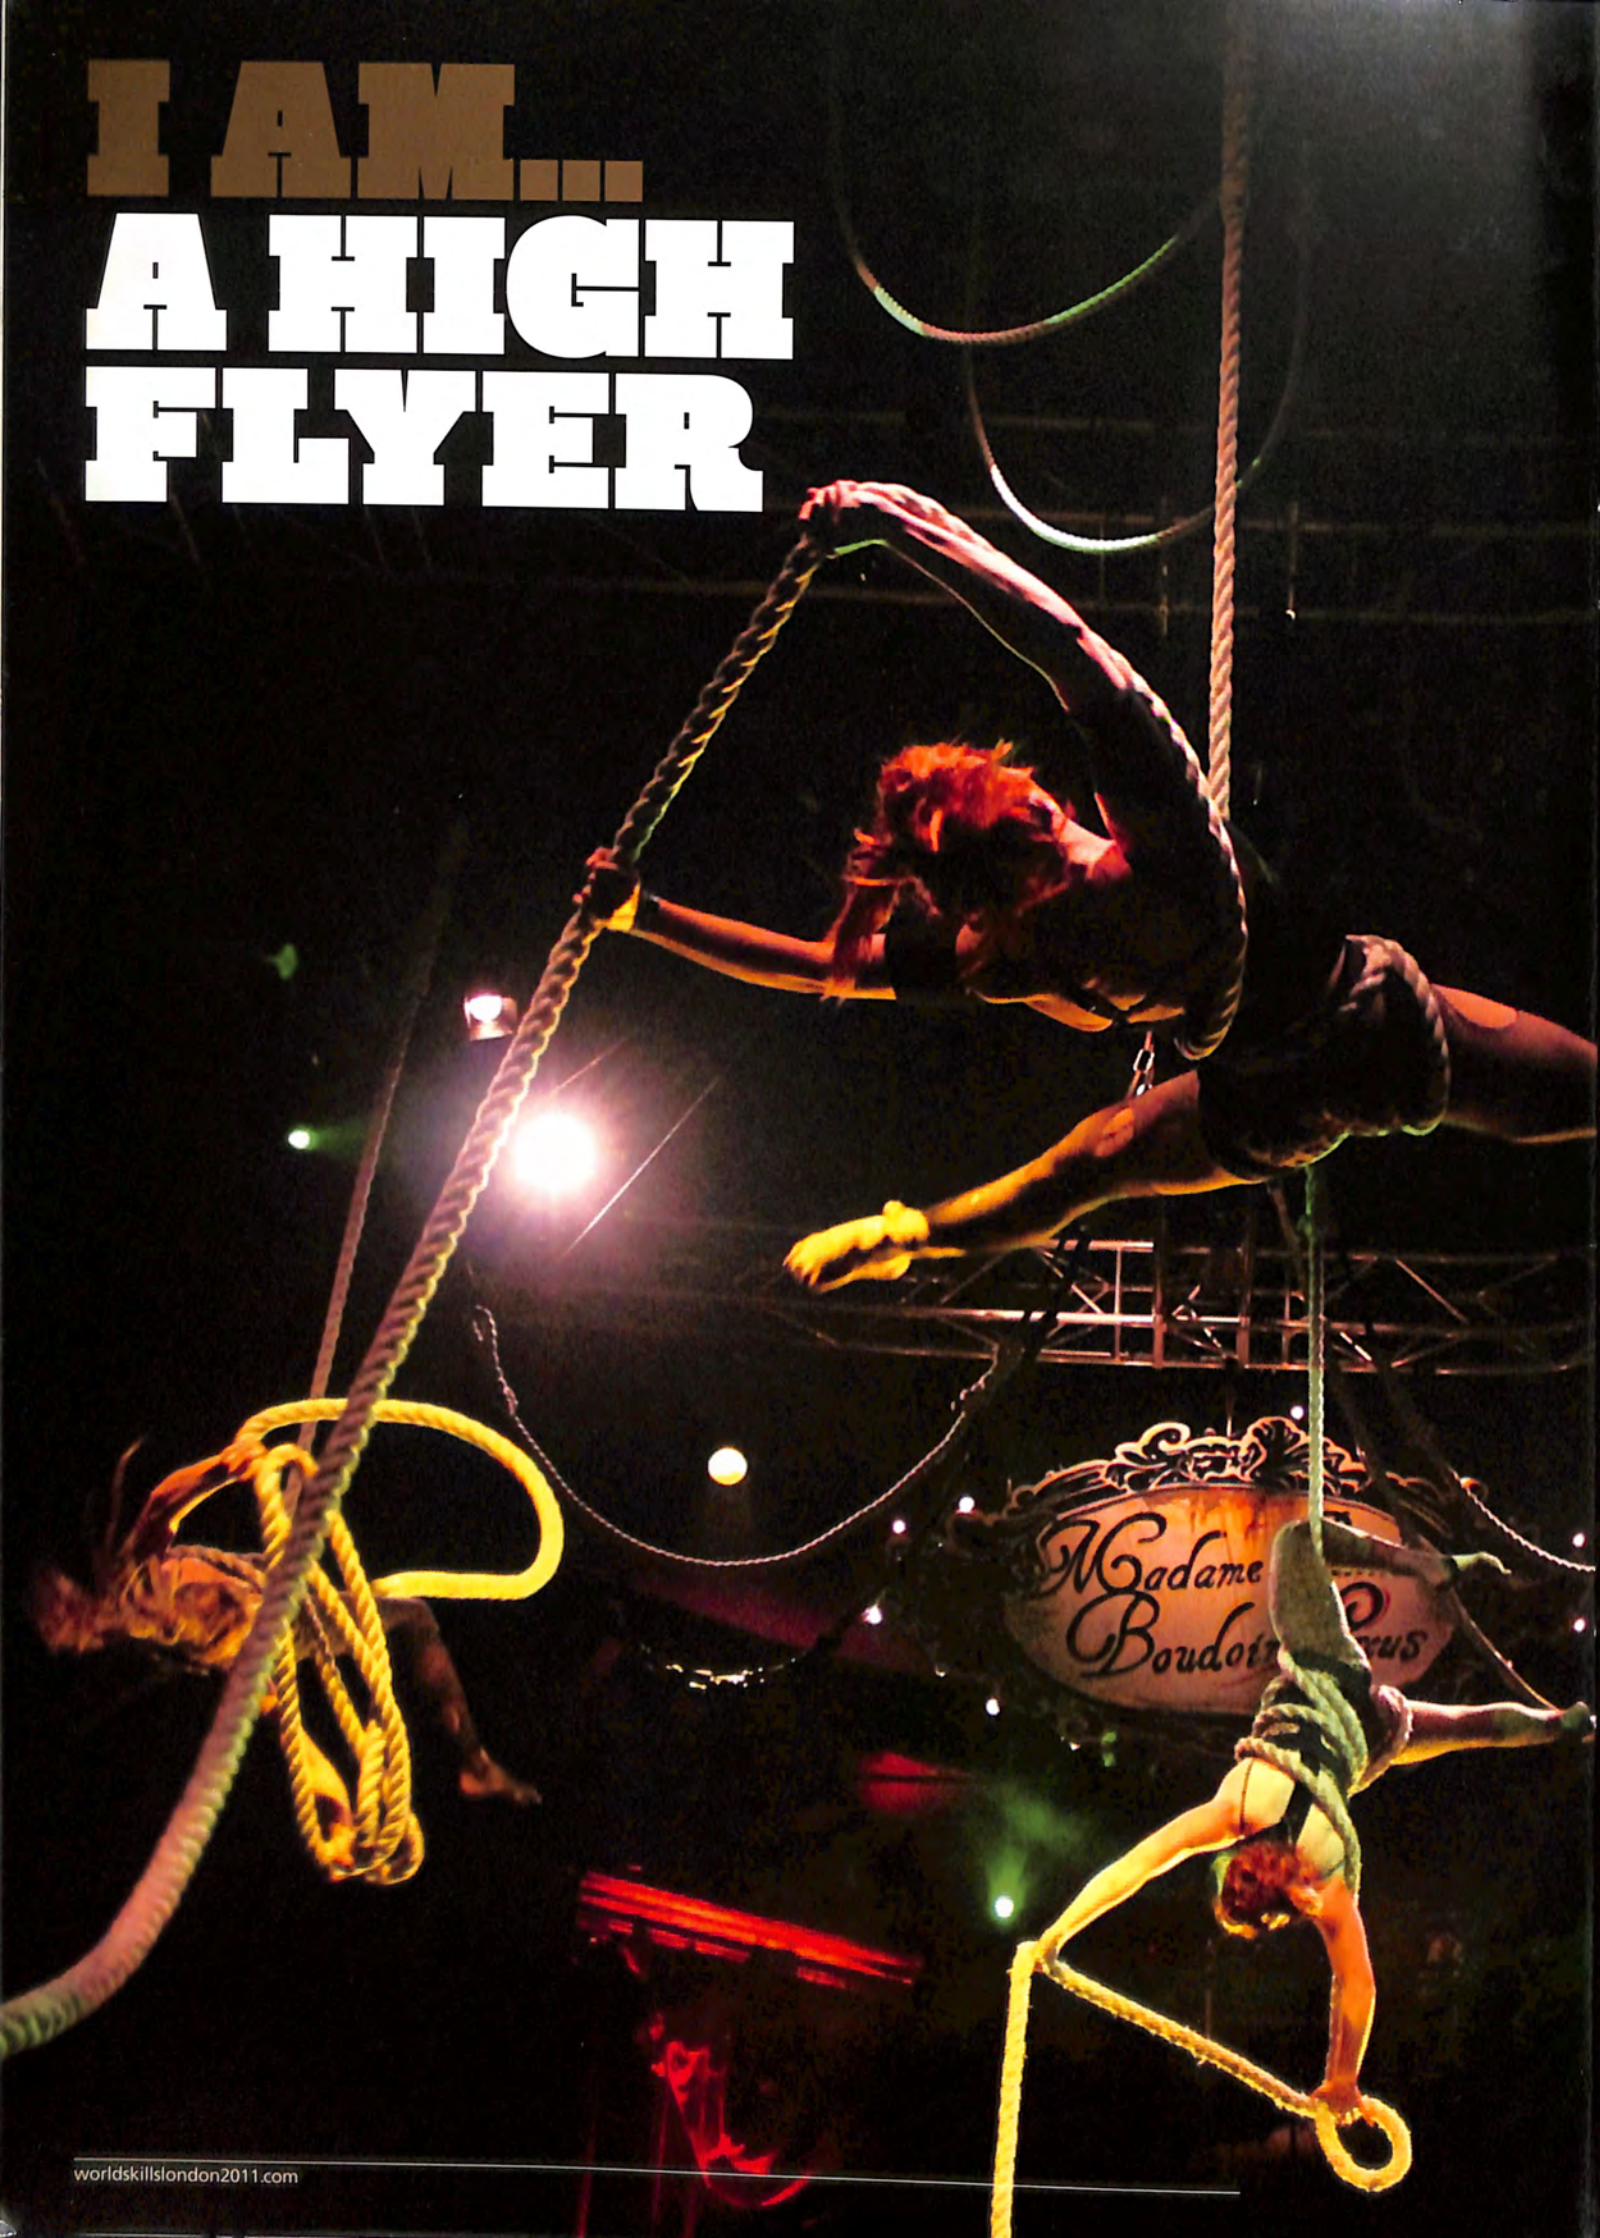

I would like to personally congratulate all the Competitors, you are all now WorldSkills Champions regardless of your medal standings. This is not the end of your journey, but the beginning.

To the Experts, Delegates, trainers, volunteers, supporters and families that have all made this possible, thank you, you have made this dream a reality for the Champions and without you WorldSkills wouldn't run.

We look forward to welcoming everyone to WorldSkills Leipzig 2013.

I AM... A HIGH FLYER

Ceremony contributors

Beardyman

Beardyman has an astounding talent for producing the sounds and rhythms of entire musical tracks using only his mouth.

The award-winning beatboxing champion Beardyman combines humour with his musical performances. Live, he often appears on stage in the guise of a 'serious' speaker (an environmental expert, a self-help guru) who starts with a speech which looks set to bore the audience, before launching into a set of hip-hop, funk and soul-inspired vocal gymnastics.

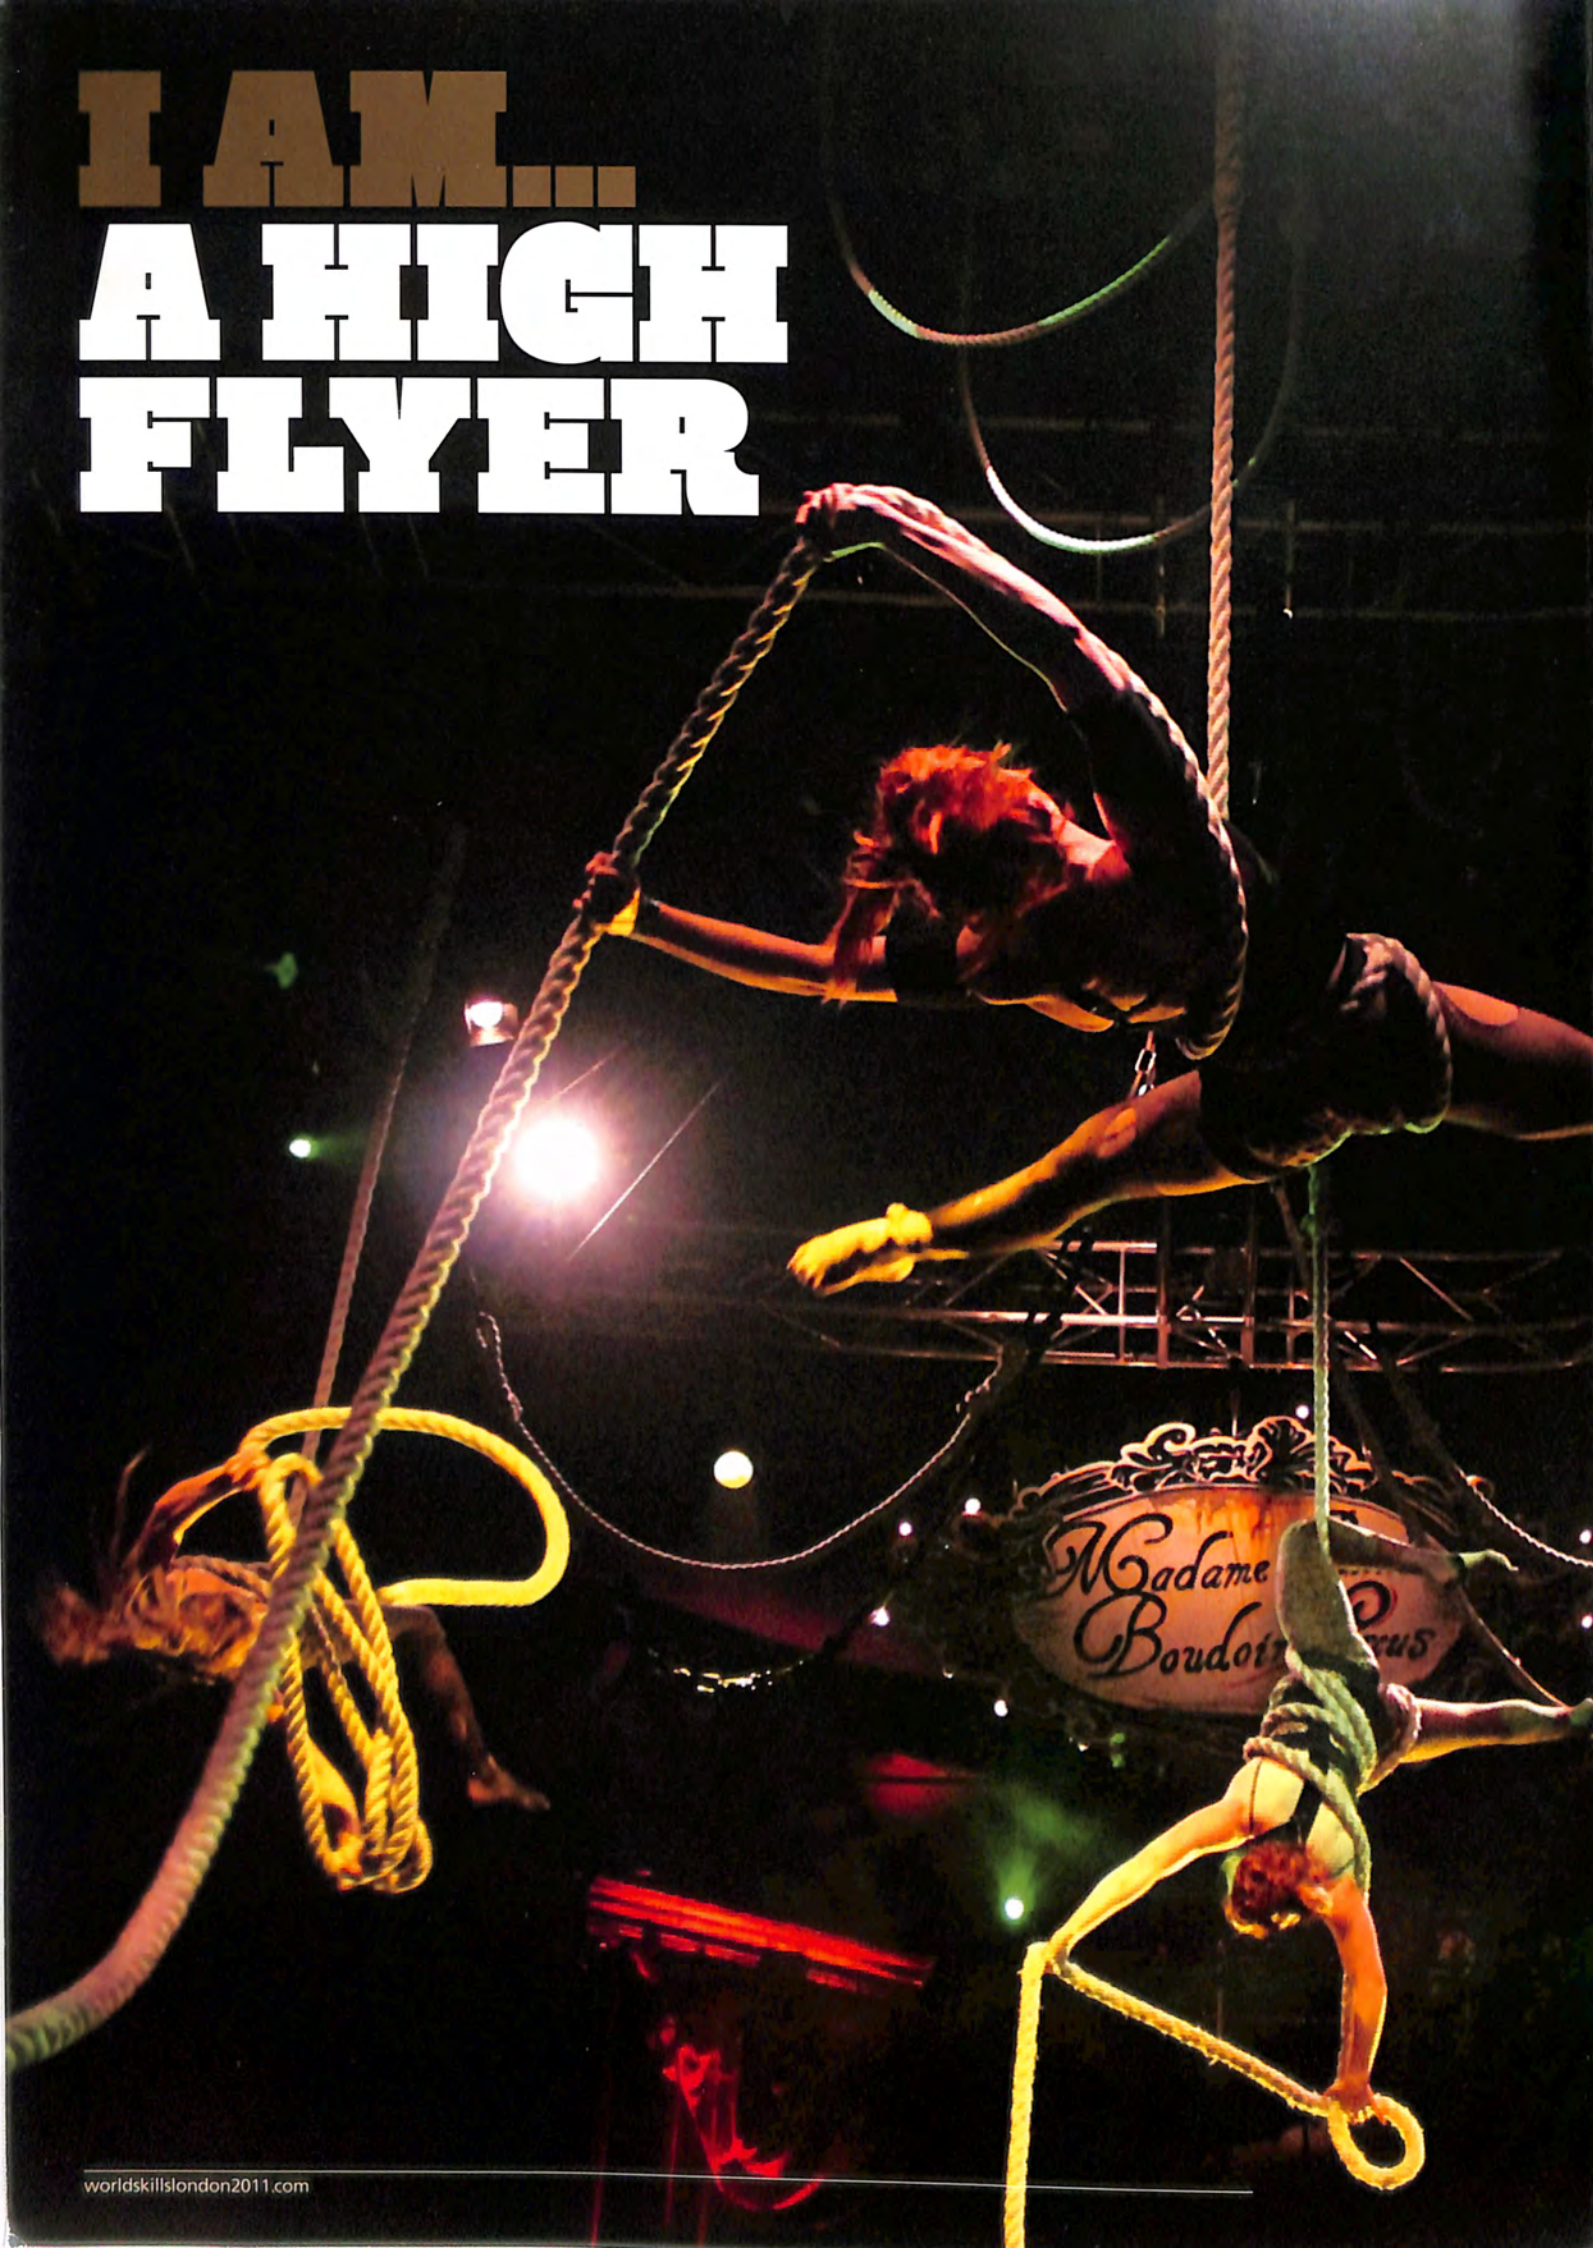

Despite writing a symphony at the age of ten, Beardyman became obsessed with music technology and dance music. He has appeared live with Groove Armada, Chaz and Dave, Blondie, Bill Bailey, and the Beastie Boys. In addition to straight forward beatboxing, Beardyman also uses a selection of digital effects and samplers to create multi-layered tracks live.

Beardyman's talent has been seen and heard on outlets as diverse as BBC 1's When Will I Be Famous, MTV, Lily Allen and Friends, Radio 1, and Radio 3, whilst a clutch of US festival appearances now beckon. He has supplied sounds and speech for TV ads for PlayStation and Sky TV, and also wrote and presented the Radio 4 programme Beardyman and the Mimics, in which he explored the natural world's inclination to copy the sounds around it.

An internet phenomenon, Beardyman has also inspired a small group called Barbists, who consider his words to be religious teachings. Presumably, they'll purchase his forthcoming debut album.

Hangar Arts Trust

Hangar Arts Trust (HAT) is a social enterprise charity offering affordable space for circus arts in London. They run a youth circus, youth training programmes, disability circus training workshops and professional and amateur tasters and classes.

Their aim is to increase youth development and further the development of the next generation of performing arts professionals; artists, teachers, directors, producers, camera and lighting specialists, fund-raisers, business managers, riggers, facilities managers and the whole range of skills needed to deliver performance. When people run away to their circus they get more than they expected; an education, a set of skills, performance experience, a CV/reference, a network of contacts and hope for meaningful employment.

The fully rigged space in Woolwich, London, houses four separate spaces for creation, practice and performance, a café/bar, a community feasting area, sauna and crèche.

AirCraft Circus, based at the Hangar Arts Trust, is a fast moving circus performing and training company. Its Artistic Director Alex Frith creates shows for the company and works widely in the performing arts, recent clients include: Ghost, Matilda, Lord of the Rings and Dragone.

3RUN

One of the world's leading Parkour and Free Running professional performance teams. Established since 2003, 3RUN have been instrumental in the development of the art of Parkour and Free Running both in the UK and across the globe.

With a passion for movement and the desire to develop those styles, whilst sharing them with the world. The 3RUN team believe anything is possible for those who are willing to try.

The presenters

Gabby Logan

Gabby Logan is one of the UK's premier broadcasters. She presents Final Score, Inside Sport, the Six Nations and the Autumn Rugby Internationals for BBC 1 and the FIFA 2011 Women's World Cup for BBC 3.

She is a key member of the BBC presentation team and presents for Match of the Day as well as the One Show. Gabby was also in South Africa in 2010 reporting on the England team for the FIFA 2010 World Cup.

A former international gymnast, Gabby began her broadcasting career in radio in 1992 and joined Sky Sports in 1996, where she quickly established herself as a football presenter.

First joining ITV in 1998 to front On The Ball, during her nine years at the channel Gabby's repertoire expanded and her presenting credits include the World Cup, Champions League and the Premiership, as well as the Boat Race and sports news reporting. In 2004 she co-hosted Sport Relief with Gary Lineker for the BBC, before joining the corporation in 2007.

Following various stints on the station, Gabby began presenting a regular weekly Sunday morning show on BBC Radio 5 Live in February 2008. From January 2010 to April 2011 she presented The Gabby Logan Show weekdays from 12pm – 2pm, which covered news and sport from across the UK as well as comprehensive analysis of Prime Minister's Questions every Wednesday.

She is a columnist for The Times and has previously written for the Sunday Mirror, Independent and Yorkshire Post.

Currently a patron of the Disabilities Trust, Prince's Trust and Great Ormond Street, Gabby is also a Vice President of Sparks.

Michael Underwood

Michael Underwood is a former CBBC presenter and backstage host on the X Factor finals, British Soap Awards and The Zone for ITV.

Michael famously won his role on CBBC appearing on Gaby Roslin's Whatever You Want. Competing against two others, Michael's enthusiasm and talent led the audience to vote him overall winner. He went on to front From the Broom Cupboard and Planet Saturday.

Moving away from children's TV, Michael became showbiz reporter for GMTV covering the MTV Awards and I'm A Celebrity... A qualified teacher, he has appeared on All Star Mr & Mrs with presenter partner, Angellica Bell and has guest hosted on The Wright Stuff.

A national competition was launched earlier in the year in association with Bentley and the Design Council to find two winning designs which captured the spirit of the Competition.

We are proud to announce the winners were Arash Manshadi, age 16 and Shivani Kava, age 13. Our two young designers are here tonight to see their medals being presented. Here's what they said about their designs and what inspired them...

In partnership with:

Supported by:

Arash and Shivani visiting the Bentley factory and the medals in production

I AM... A SHINING EXAMPLE

Arash Manshadi

Age 16

Gold, Silver and Bronze medal

I think my medal design is eye catching and most importantly a suitable award for someone who has great skill. I decided to use images which symbolise three main factors of WorldSkills London 2011.

1. The Globe, because this is an international event it is important to show that the world is involved.
2. London, as the host city it is vital that London is mentioned on the medal, which is why I chose to put the London skyline on the medal.
3. Skills, as the theme of the Competition is skills I decided to use a symbol which represents this; hands. Every skill requires real craftsmanship and to use his or her hands therefore I think it is very important to show the hands of the skillful people. The hands on the medal are moulding the world into shape. This reflects their roles very well.

Shivani Kava

Age 13

Best of Nations medal

My design has got the map of the world on it to show that it is skills from all over the world coming to London to compete. I've put the London skyline because it shows the famous landmarks in London signifying London as the host city. The world also shows a global village.

The Albert Vidal Award

Presentations

The Sustainability Award

The Sustainability award recognises efforts to ensure a viable and successful future for the organisation and its competitions. All Experts are tasked with reviewing and improving their own skill category. This entails recognising future growth, lasting benefits and return on investment from running competitions while ensuring they are of the highest quality and professionally conducted. Based on agreed criteria before the Competition starts, all skills are judged to determine which has made the biggest difference towards 'sustainability' since the WorldSkills Competition in 2009.

The Albert Vidal Award

Named after the founder of WorldSkills International, the Albert Vidal Award is presented to the highest scoring individual or team across the whole WorldSkills London 2011 Competition.

This year's Albert Vidal Award is a commissioned hand-crafted vase from a renowned glass blower based on the Isle of Wight, using traditional methods to produce the award. The vase sits in a base of solid Welsh slate.

Winners

Gold

Silver

Bronze

Chris Humphries CBE explains how
WorldSkills London 2011 has helped
to unveil the UK's hidden treasure

This October, we saw 950
Competitors from across
the globe travel to London
to compete to be 'the best
in world' at their chosen skill
at WorldSkills London 2011.
So what was the significance
of this event to the UK?

The answer; there has never been a more important
time than now to offer information, advice and
support on future careers and job opportunities.
It was with real pride that the UK hosted this
60-year-old event (importantly with the full
backing of the Skills Minister John Hayes and the
Department for Business, Innovation and Skills)
that was once known as the 'Skills Olympics.'
We witnessed the world's most talented and
skilled young people compete for Gold, Silver
and Bronze medals in their chosen career.

However, the world stage they competed on
differs immensely – in some countries, successful
Competitors are celebrated; enjoying celebrity status
as well as wealth and glory. The picture in others
(including the UK) is very different. It is frequently
acknowledged that the public appreciation of any
education that is non-academic is disappointingly
low. There are many reasons to change this.

For insiders in the UK's Further Education (FE)
world, it has been a source of constant frustration
that our biggest asset (FE) remains such a hidden
treasure. Hosting WorldSkills has provided a tangible
opportunity to change this – there is no better
way to discover a new passion (or a hidden talent)
than getting hands-on and trying it out. To quote
Business in the Community (BITC) 'seeing is
believing', hosting WorldSkills here (for the first time
in 22 years) has taken FE to the very top of this
nation's agenda – exactly where the sector has long
argued it should be. If skills gaps are to be addressed,
the careers and jobs of the future need to be opened
up to the UK's young people. WorldSkills has been
the ideal forum at the ideal time.

WorldSkills also celebrated our unsung heroes;
the people with practical and applied skills, who
design, build and improve the world we live in.
WorldSkills showed how skills mean business.
We all know that skills mean long term job security
and economic prosperity for the country as well
as personal satisfaction. This is why it won't all be
over after tonight. In fact, you could say it is just the
beginning. The inspiration and excellence generated
by WorldSkills will be replicated, so that its legacy
will see future generations competing for gold
at the national level, every year.

'WorldSkills UK' will not only impact the current
financial climate; it will also influence the whole
future of UK trade and industry by integrating
future competitions and awards into a single,
streamlined process across the UK. Expansion
in the UK will ultimately drive growth and
productivity for years to come.

Challenging attitudes about the value and
acquisition of practical skills has never been
more needed or necessary. I thank you all here
tonight for helping us to achieve this and wish
you all continued success in future Competitions.

Chris Humphries CBE
Chairman, WorldSkills London 2011

I AM...
REACHING
NEW HEIGHTS

Do you know an ambitious
and talented young person?

Like what you've seen and know someone who
should be involved? Then let's get them started on the
journey to success! Skills competitions offer significant
benefits to everyone involved and are a great way to
boost professional skills.
