

Team Briefing Weekend

June 99

Some points for Summing Up

11.30 6/6/99

Instructional + enjoyable?

Hope many questions in your mind when came answered?

Fewer uncertainties

Better prepared for what you've embarked upon,

Also

Competitors - time with you expert - but with her/h
whole support team employers, college, Parents etc
+ team leaders - if concerned get in touch

Experts - time into competitor
w/ revised training programme

First timers - the process less mysterious

- more confident + prepared
in touch with mentors

Experienced - hope a useful recapitulation

Your monitor will be in touch a couple
more times to check with you no problems

Any a general question which you've been
bursting to put ?

If not - don't hesitate to nudge any of
us individually afterwards

Now it is my turn to wish you all, all
the best

- the experts in their training + preparatory
work

but above all you are World Skills Team
competitors for 1999.

There is no one type who is a medal
winner - we've had gold medals won by
wild extroverts, apparent introverts and
regular balanced guys & girls

But as you'll have gathered by now
there are key elements to success -

application, determination, ability to keep,
or at least recover, calm, remembering what

you've learned, single mindedness &

justified confidence in oneself without complacency
as Susan said last night it is also
to finish the job. He also said that it was
an event she enjoyed. It will be

a great experience. It's a bit of a challenge isn't it?

— interest — but don't worry you can get help & support
Whilst you are all potential medal

winner don't forget that the award for
diploma of excellence for a score in excess

of the mean 500 - the mean for you trade
indications reached recognised standard & excellence
also contributes to the UK total score in

the eventual table of results.

Two practical pts

If you have visitors coming to Datchet whether from co, college or family
you'll find it fine - & welcome but we'll be reminding
you of the competition until after the event. Off putting / Disrupting
activities

2. Remember what Richard says - dealing with media
Be positive. Don't raise concerns
No vagaries - but tell us.

Bad News = Good News
or is it not?

You the competitors will be
meeting again before Pentecost at the outdoor
Team Builder Wk at Brathay at the
end of August.

3

It's been great meeting you all
- every good wish ^{all success.}

Finally ^{express} ~~say~~ my thanks ^{on behalf of} you Skitts

CITB ^{general} looked this weekend
