INTERNATIONAL APPRENTICE COMPETITION

18 OCT 1965

IAC/7745/65

TO ALL MEMBERS OF THE 1965 BRITISH TEAM

Dear *John*,

Even at this late stage I should like to add my personal congratulations to those you have already received on your success at Glasgow in July. We are continuing to receive letters of congratulation on the British results and I have never known a year when there have been so few unfavourable comments.

I wonder whether you could give me any help in making preparations for the 1966 Competition. My purpose in asking this is to make sure that any mistakes which occurred last year are not repeated and you would therefore be helping to prevent your successors from any unnecessary suffering.

Would you please be perfectly frank and in confidence give me any comments or criticisms which you would like to make particularly about the following parts of the Competition:-

1. The Selection Tests in your trade.
2. The Briefing Session.
3. The Technical arrangements in your trade at the Competition itself.
4. The instructions given to you during the tests. In this connection if you should still have a copy of the particular instructions for your test given to you at Glasgow and would like to let me see them, I will have them photo-copied and return the original to you.
5. Any other comments about any subject.

I should be very grateful for any comments or suggestions you can make - scribbled on the reverse of this letter will be quite sufficient. I enclose a stamped addressed envelope for any help you can give.

Yours sincerely,

for *Robin Bullough*
